

# GOLDFIELD RIVER PARK DAM IMPROVEMENT PROJECT

Do you like this?

OR

Would you like this?

Our 79 year old dam on the Boone River has drastically deteriorated in the last ten years. The Iowa Department of Natural Resources has designed a Rock Arch Rapids to replace it. Depending on different flow levels, people will be able to walk, paddle, tube, fish and otherwise enjoy this **NEW** Rock Arch Rapids in the Goldfield River Park.

Projected cost is \$70,000. Grants are being applied for. Private donations are necessary.

Would you like to be part of the Goldfield River Park Dam Improvement Project?

Please write your tax deductible check to the City of Goldfield, Trust and Agency Fund for the Goldfield Dam Project.
